

I-405 – Bellevue to Lynnwood Widening and Express Toll Lanes Project

This new NE 160th Street braided on-ramp to northbound I-405 will be in built by the time the project wraps up in 2015. The new braided ramp will reduce congestion by separating vehicles coming from NE 160th Street to northbound I-405 from drivers already on I-405 headed to SR 522.
